SUMMARY

Full-stack developer with over two years of experience building scalable web applications and optimizing performance using Laravel, PHP, and modern JavaScript frameworks. Proficient in developing automation tools, integrating APIs, and enhancing user experiences through responsive design. Passionate about artificial intelligence and innovative software solutions, with a strong foundation in agile methodologies and project management. Seeking opportunities to contribute technical expertise to global teams.Passionate about innovation and emerging technologies in the field of computer science.
I particularly enjoy working on personal projects to deepen my knowledge of programming languages and software architectures.The field of artificial intelligence has greatly captured my interest during my studies, and it is a specialization I am eager to explore in greater detail.

EXPERIENCE

Full stack developer
07/2024 - Present
Itihad group ↗

- At Itihad Group, I was responsible for the maintenance and optimization of several websites, as well as the development and management of web scraping bots.
- I improved front-end performance through code refactoring, lazy loading, and asset optimization to deliver a smoother and faster user experience across devices.
- On the automation side, I maintained and optimized multiple custom scraping bots designed to extract data from various external platforms, ensuring high reliability and adaptability to changes in website structures.
- I also developed AMP (Accelerated Mobile Pages) to significantly reduce load times on mobile devices, which helped enhance SEO rankings and boost mobile traffic.
- Technologies & Tools: Laravel, Mysql, Agile methodology, Git, GitLab, HTML, CSS, PHP, JavaScript, Bootstrap, Project Management, Linux, Python, Amp, Flutter, Firebase.

Full stack developer
01/2024 - 06/2024
Techitaway ↗

- Participation in the maintenance of existing projects such as "Gouny" and "Recordati", which are based in France, as well as other local projects.
- Handled various code-related issues, including bug fixing, performance optimization, and code quality improvement to ensure better project stability and scalability.
- Technologies & Tools: Laravel, PostgreSQL, SharePoint API, Agile methodology, Git, GitLab, HTML, CSS, PHP, JavaScript, Bootstrap, Project Management, Linux, Docker.

Full stack developer
01/2023 - 07/2023
M'hamed Bougara Boumerdes university ↗

Developed the back-office of the Boumerdes Mobility application to manage and organize various types of data.

- Implemented an online mobility platform that allowed real-time tracking of international internship applications for teachers, administrative staff (ATS), and PhD students.
- Integrated a custom workflow system to streamline application review processes for managers, enabling them to accept or reject submissions with clearly stated reasons.
- Also added a real-time chat system and a friend suggestion feature tailored for teachers, enhancing collaboration and communication within the platform.
- Technologies used: Laravel, PHP, MySQL, JavaScript, HTML, CSS, Bootstrap, UIKit.

EDUCATION

Information Technology   10/2021 - 07/2023
University of Boumerdes, Algeria - Master's degree

- Module on functional programming, computer networking, security, and artificial intelligence.

Information Systems And Software Engineering   09/2018 - 09/2021
University of Boumerdes, Algeria - Bachlor's degree

- Coursework included object-oriented programming (OOP) and cybersecurity.

Baccalauréat (Mathematics)   2015 - 2018
Boukabous Ahmed High School, Boumerdes, Algeria

SKILLS

Languages: PHP, JavaScript, Python, Java, HTML, CSS

Frameworks & Libraries: Laravel, React, Bootstrap, Tailwind CSS, UIKit

Databases: MySQL, PostgreSQL, SQL

Tools & Platforms: Git, GitLab, Docker, Linux, Firebase, Flutter, AMP

AI & Computer Vision: OpenCV, YOLO

Methodologies: Agile, Project Management

Soft Skills: Strong communication and teamwork, Research and analytical skills, Problem-solving and adaptability
